

MASS GENERAL | MIT | HARVARD

## **Postdoctoral Research Fellow**

***Posting Date – 11/2/2023***

The Liu Lab (<https://liulab.bio>) at the Ragon Institute of Mass General, MIT, and Harvard) builds tools to study immune cell interactions and their dynamics across spatial and temporal contexts. We are looking to hire a creative and self-motivated postdoctoral fellow to join our team.

### Job Duties:

- Responsible for the design, execution, and interpretation of experiments;
- Interfaces with collaborators to design experiments, analyze and interpret the data;
- Prepare scientific presentations and publications;
- Supervises the experiments and data analysis of technicians or students as needed.

Qualifications: PhDs or MD/PhDs in biology, chemistry, bioengineering, chemical engineering, or a related field is required. Experience in molecular biology and next generation sequencing analysis is preferred. Please send your CV, a letter of interest and a list of three references per email to Dr. Sophia Liu ([sophia.liu@mgh.harvard.edu](mailto:sophia.liu@mgh.harvard.edu)).

***All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.***
